

CONSUMPTIONS

Energy, fuel, and water consumption are shown for 2020-2024 in the following graphs:

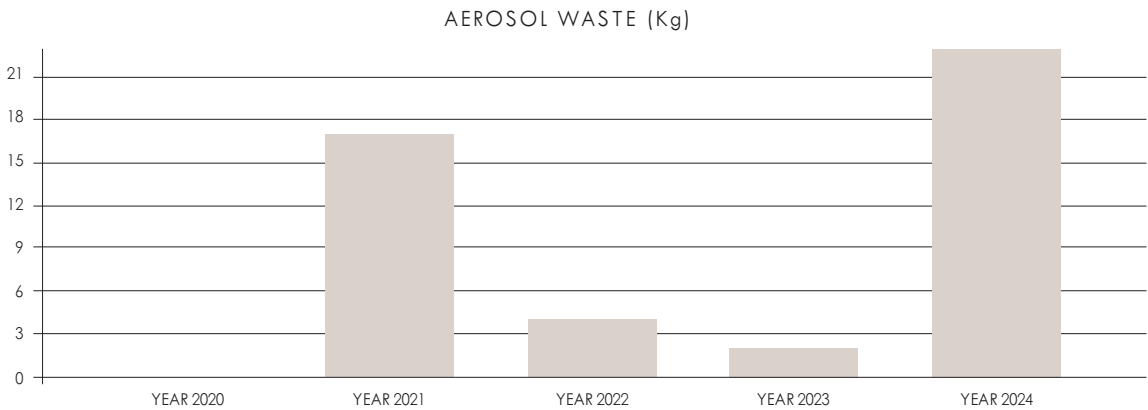

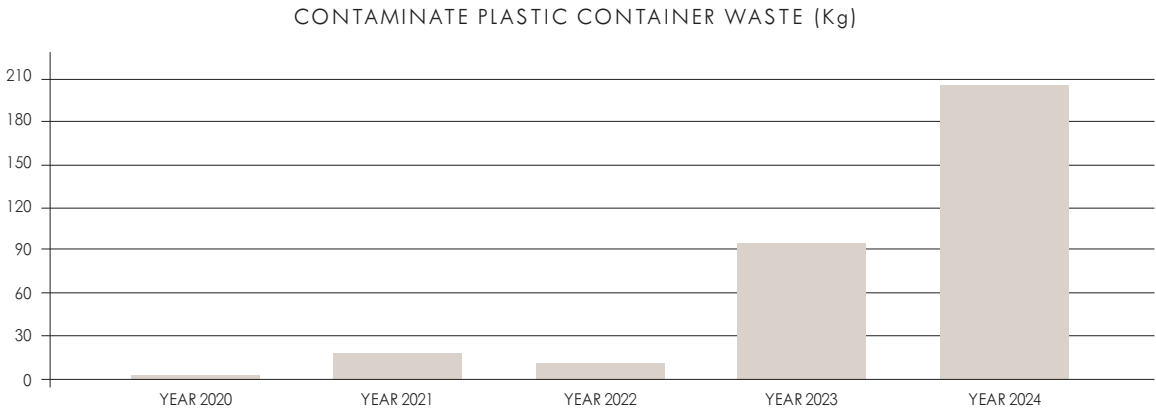

As representative consumptions of our activity, the following graphs show the consumption of packaging materials (cardboard and plastic) and paper from 2020 to 2024:

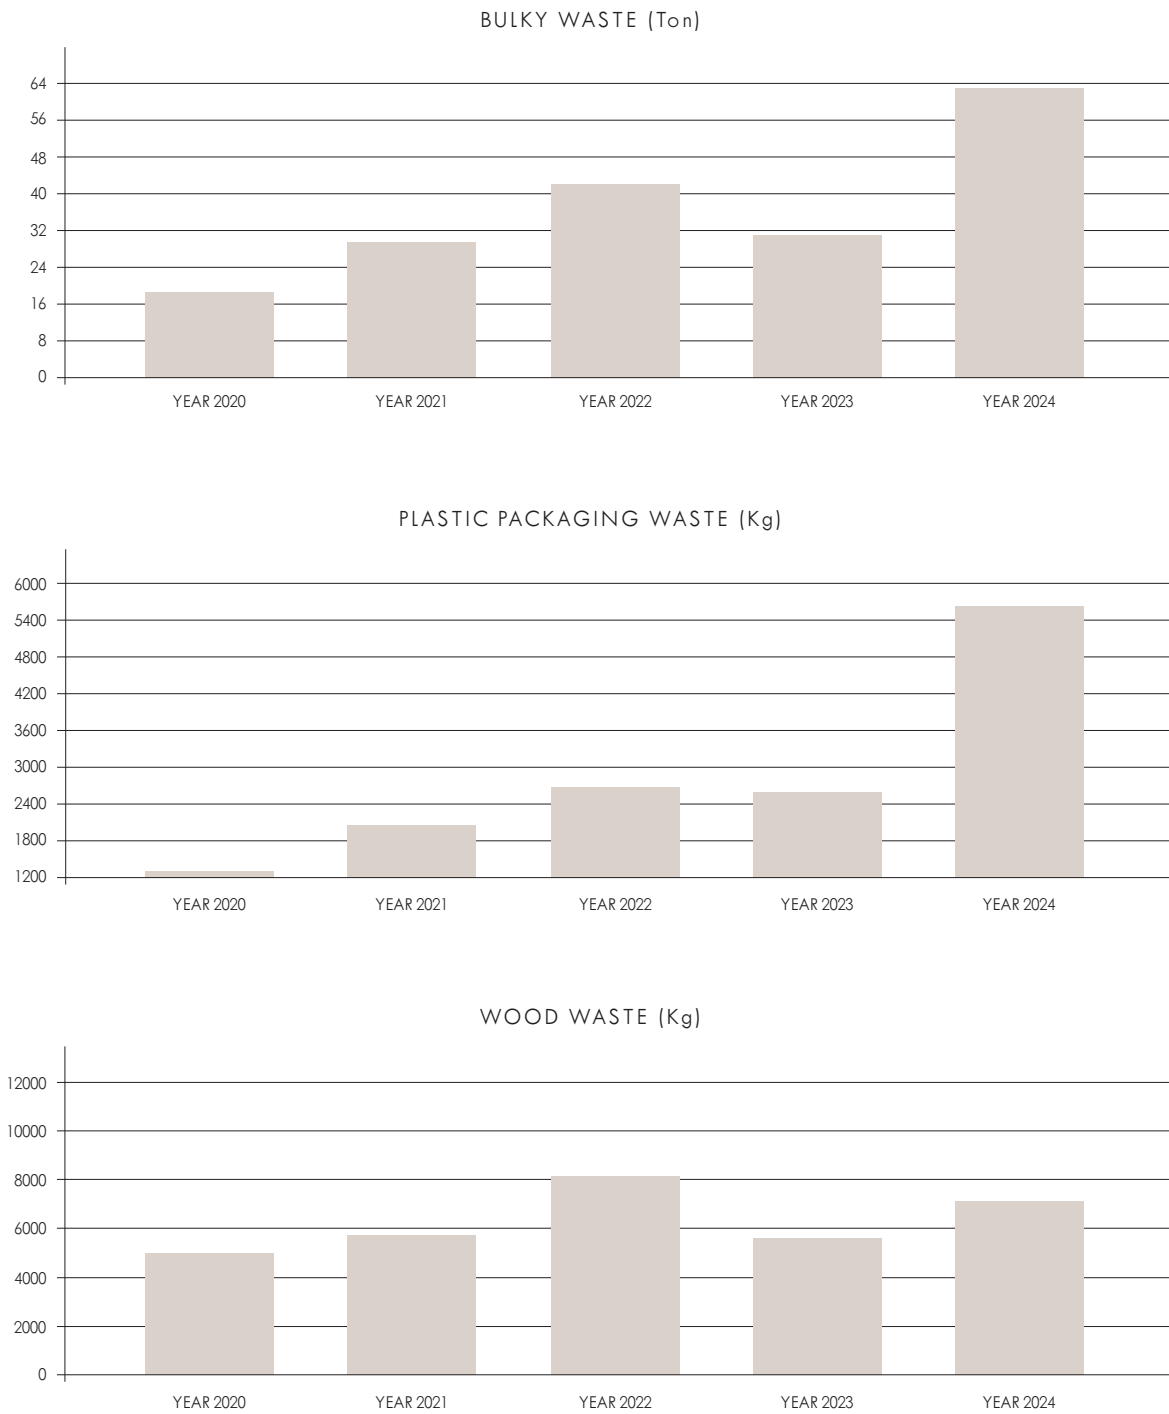

WASTE MANAGEMENT

The graphs for the management of hazardous waste are shown for the years 2020 to 2024:

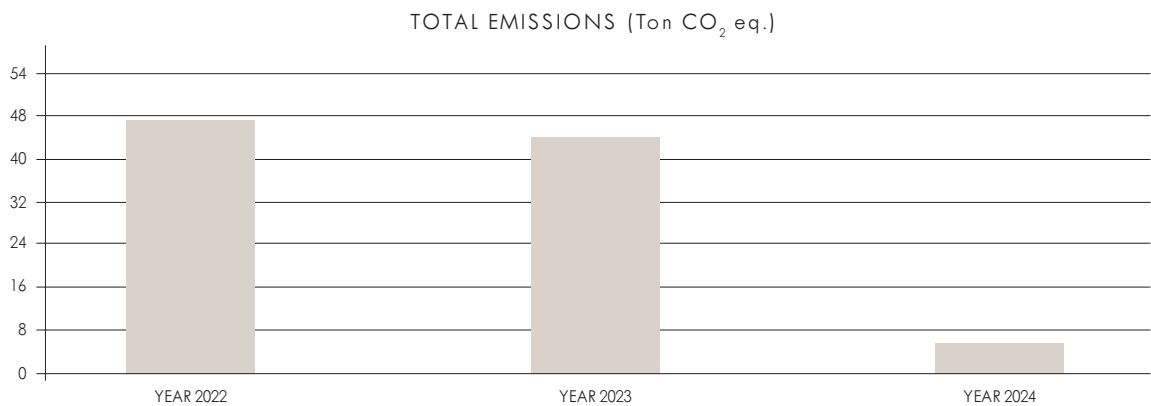

The following graphs show the management of non-hazardous waste for the years 2020 to 2024:

CARBON FOOTPRINT

Since 2022, at Viccarbe we have been measuring and managing our carbon footprint for scopes 1 and 2. The results have been published in the Carbon Footprint Register of the Ministry for the Ecological Transition and the Demographic Challenge (MITECO). In addition, starting in 2024, all the electricity we consume comes from 100% renewable sources.

Below is the graph showing total emissions in Ton CO₂ eq. for the years 2022 to 2024:

ENVIRONMENTAL ASPECTS

The environmental aspects of the company were assessed on 30th April 2025, with a significant consumption of electricity and fuel. For this reason, a reduction in energy and fuel consumption have been considered for the year 2025.

September 1st, 2025
